

version 007 01/01/2021 editor P CAMPBELL
- Added missing part numbers, renumbered
- Cleaned up ERC with approvals
- Cleaned up Net Names
- Layout cleanup (extensive)

version 006 31/12/2020 editor P CAMPBELL
- Added I2C bus extenders on Sensorin
- Changed I2C pullups on Sensorin from 3.3V to 5V

version 005 14/12/2020 editor Darragh Broadbent
- changed pull up resistor value between I2C multiplexer and slave devices to 3K from 10K
- resolved clearance issues

version 004 12/5/2020
- add new 5V regulator

version 003
- removed piezo buzzer
- used transistor/P-ch mosfet for triggering sensorin power
- added 33nF capacitor on the 5V power regulator based on rev1.6 of the data sheet
